CIDA BULLETIN OF CONSTRUCTION STATISTICS

CONTENTS

	Page No
Preambles	1
Notes to Tables	2 -7
TABLE 1 : Price Indices for Construction Materials	8- 21
TABLE 2 : Price Indices for Labor Wages	22
TABLE 3 : Price Indices for Dry Hire Rate for Plant and Equipment and Fuel	23
TABLE 4 : Cost Indices for Various Types of Construction and All Construction	24
TABLE 5 : Monthly Cost Indices for Various Types of Construction work	25
Variations in Price Indices	26 – 27

STATISTICS FOR THE NATIONAL CONSTRUCTION INDUSTRY OF SRI LANKA

1.1 PREAMBLE

The vision of CIDA is “To create a reliable and competent Construction Industry for Sri Lanka on par with global standards”. As such providing information and statistics for the stakeholders of the industry is a necessity for the sustenance of the industry and has National importance. CIDA introduced a bulletin of Price and Cost Indices in the year 1990, capitalized it as the base year. Indices can be defined as indicators of inflation in construction inputs such as materials, labour and fuel. Currently, Price Indices of 61 items are published including 55 Materials (M indices), 03 Labour (L indices) and 03 Dry Hire Rates for Plant & Equipment (P indices). Various Types of construction works are computed quarterly including “All Housing” (average of Modern Housing and Semi-Permanent Housing), “Non-Residential Building”, “All Civil Works” (average of Irrigation Major and Minor, Road Works, Water Supply and Drainage and other Civil Works) and “All Construction” (average of main 03 types). Cost Indices including Modern housing, Non-Residential Building and Water supply and Drainage are also published using the monthly variables. Updated monthly with the details collected from designated places and suppliers, and online data collection system has also been planned to be introduced soon.

Currently, the indices published in the Bulletin are applied in the Price Fluctuation formula in the monthly Bill for making claims inappropriate manner as given in the section “Adjustments for Changes in Costs” in the Standard Bidding Document published by CIDA. The Government has approved the adoption of the formula method for the reimbursement of price escalation, following CIDA publication No.ID/07, which is mandatory for the state sector construction projects, with effect from 1st January 1993. Base Index and the Current Index is the two vital parameters used in the Price Fluctuation The formula as monthly variables.

1.2 SIGNIFICANT PRICE CHANGES OF THE CURRENT MONTH

FEBRUARY 2021

Compared with **January 2021**, the Indices of the following Materials have changed in **February 2021** due to the reasons as described.

Construction costs have risen steadily over the past decade, as demand has grown and the prices of building materials have increased. Growth of the construction projects of highways, roads and water supply has induced the high demand for materials.

Therefore, the indices of **M6-Rubble, M7-Metal, M48-Aggregate Base Course (ABC), and M52-Quarry Dust** have increased over 5% due to high demand.

Also, the high cost and scarcity of river sand are some of the main problem faced by the construction industry today. Since quarry dust is used as a substitute to sand, the indices of quarry dust has increased.

The indices of **M26 Electrical Wires** have gone up due to the increase of **LME** copper price.

M15-GI sheet, M46- Zinc Aluminium sheets - Indices are still increasing due to the delays in import consignments/shipments and Dollar fluctuations.

NOTES TO TABLES

Source of information used for deriving of price indices given in Table 1 – 4 are explained in pages from 02 to 07.

Table 1

1. M1 Cement – Local (Ex factory)

Based on the ex factory price of a 50kg bag (Puttalam)

2. M2 Cement - Imported

Based on the average price of a 50kg bag sold by public and private importers

3. M3 Cement – Local (Market Price)

Based on the average price of a 50kg bag sold by public and private dealers

4. M4 Cement – Weighted Average

Based on the weighted average price of a 50kg bag calculated as per consumption ratio of above categories (M1, M2 &M3).

5. M5 Cement Blocks

Based on the average price of a 400 x 200 x 100 mm (solid) size block sold by public and private dealers.

6. M6 Rubble

Based on the average price of a cube (100 cubic feet) of 6" – 9" size rubble delivered to site by private dealers.

7. M7 Metal

Based on the average price of a cube (100 cubic feet) of 20 mm size aggregate delivered to site by private dealers.

8. M8 Sand

Based on the average price of a cube (100 cubic feet) of river sand delivered to site by private dealers.

9. M9 Bricks – Hand Cut

Based on the average price of 1000 Nos of bricks delivered to site by private dealers.

- 10. M10 Bricks – Machine Cut**
Based on the average price of 1000 Nos of bricks delivered to site by private dealers.
- 11. M11 Calicut Tiles**
Based on the average price of 1000 Nos of Calicut tiles (Grade 1) delivered to site by private producers.
- 12. M12 Lime**
Based on the average price of a metric ton of slaked lime sold by private dealers.
- 13. M13 Reinforcement Steel**
Based on the average price of a hundreds weight of 12mm diameter Tor Steel bar sold by private dealers.
- 14. M14 Structural Steel**
Based on the average price of a linear foot of 50 x 50 x 5 mm Angle Iron sold by private dealers.
- 15. M15 GI Sheets**
Based on the average price expressed in square foot rate of a Gauge 26 corrugated sheet 30" x 84" sold by private dealers.
- 16. M16 Asbestos Roofing Sheets**
Based on the average price of a 10' long corrugated sheet sold by public and private dealers.
- 17. M17 Asbestos Ceiling Sheets**
Based on the average price of a 4' x 4' plain sheet sold by public and private dealers.
- 18. M18 Sanitary Ware (Local)**
Based on the average total price of a white wash basin and a water closet including accessories sold by private dealers.
- 19. M19 Sanitary Ware (Imported)**
Based on the average price of an imported wash basin including accessories sold by private dealers.
- 20. M20 PVC Pipes**
Based on the average price of a linear meter of 20 mm diameter PVC water pipe sold by private dealers.
- 21. M21 Formwork Timber**
Based on the average price of a linear foot of Class 3, 1" thick, 6" wide timber plank sold by private dealers.

- 22. M22 General Timber**
Based on the average price of a linear foot of Class 1 timber (100x75 mm size) sold by private dealers.
- 23. M23 Timber Products**
Based on the average price of a standard ordinary plywood door (11/4" thick, 2'9" x 6'9") sold by private dealers.
- 24. M24 Glass**
Based on the average price of a square foot of 3mm plain glass sold by private dealers.
- 25. M25 Door and Window Fittings**
Based on the average price of a pair of 100x75 mm brass butt hinges sold by public and private dealers.
- 26. M26 Electrical Wires**
Based on the average price of a 100 meter wire coil (1/044) sold by private dealers .
- 27. M27 Wall Paint**
Based on the average price of a liter emulsion paint sold by private dealers.
- 28. M28 Wood Paint**
Based on the average price of a liter enamel paint sold by private dealers.
- 29. M29 Cadjan**
Based on the price of 100 pairs obtained from the District Price Fixing Committee, Colombo.
- 30. M30 Bitumen 80/100 (Drum Form)**
Based on the price of a liter of Bitumen 80/100 (Drum form) sold by Ceylon Petroleum Corporation.
- 30A. M30A Bitumen 80/100 (Bulk Form)**
Based on the weighted average prices of a liter of Bitumen 80/100 (Bulk form) sold by Ceylon Petroleum Corporation & price of a liter of decanted Bitumen 80/100 sold by private dealers.
- 30B. M30B Bitumen 60/70 (Drum Form)**
Based on the price of a liter of Bitumen 60/70 for (Drum Form) sold by Ceylon Petroleum Corporation.
- 30C. M30C Bitumen 60/70 (Bulk Form)**
Based on the weighted average prices of a liter of Bitumen 60/70 (Bulk Form) sold by Ceylon Petroleum Corporation & price of a liter of decanted Bitumen 60/70 sold by private dealer.

- 31. M31 Terrazzo**
Based on the average price of a square foot of in-situ terrazzo (dark colours) laid by contractors.
- 32. M32 Floor Tiles**
Based on the price of a 300 mm x 300 mm homogeneous white floor tile supplied by local manufacturer.
- 33. M33 Wall Tiles**
Based on the price of a 300 mm x 300 mm white wall tiles manufactured by local manufacturer.
- 34. M34 Granite Tiles**
Based on the average price of a 300 mm x 300 mm tile sold by private dealers.
- 35. M35 Colour Pigment**
Based on the average price of a Kilogram of Red Cement (imported) sold by private dealers.
- 36. M36 Aluminium Doors, Windows & Partitions**
Based on the average price of a square foot of Aluminum door installed by contractors.
- 37. M37 Aluminum Suspended Ceiling**
Based on the average price of a square foot of Aluminum framed acoustic paneling ceiling installed by contractors.
- 38. M38 Electrical Fittings**
Based on the weighted average price of Ceiling Fan, Plug Base, Trip Switch sold by private dealers.
- 39. M39 Ready Mixed Concrete**
Based on the average price of a cubic meter of Grade 20 ready mixed concrete sold by private dealers.
- 40. M40 High Tensile Steel Wire**
Based on the average price of a metric ton of imported 5 mm diameter high tensile steel wires.
- 41. M41 Pre-stressed Bridge Beams**
Based on average price of a 40'0" long bridge beam manufactured by SEC and SD & CC.
- 42. M42 Concrete Lamp Post (Pre-stressed)**
Based on average price of a 30' 0" long lamp post manufactured by SEC and SD & CC.

43. M43 Precast Concrete Components for Bridges , Roads and Building

Based on weighted average price of Fence Posts , Paving Slabs, Kerbs Uprights , Handrails manufactured by SEC and SD & CC.

44. M44 Hume Pipes

Based on average price of a 3' 0" diameter 8' 0" long hume pipe manufactured by SEC and SD & CC.

45. M45 Earth

Based on average price of a cube (100 cubic feet) of Type II earth delivered to site by private supplier within 10 km distance.

46. M46 Zink Aluminum Sheets

Based on average price of a square foot of 0.47mm coloured roofing sheets manufactured by private producer.

47 . M47 Ductile Iron Pipe

Based on average price of a meter of 80mm – 300mm diameter pipe imported from different countries.

48 . M48 Aggregate Base Course (ABC)

Based on average price of a cube (100cu.m) of ABC delivered to site by private dealers within 10km.

49 . M49 Chain Link

Based on average price of a linear foot of 4'0" high, Gauge 10 PVC coated chain link (green) sold by private dealers.

50 . M50 Stainless Steel

Based on the average price of a linear foot of a 3 ft high standard hand rail.

51 . M51 Cement Roof Tiles

Based on average price of a standard type roof tile supplied by private dealers.

52 .M52 Quarry Dust

Based on the average price of a cube (100cubic feet) of quarry dust supplied to the site by private dealers.

53 .M53 Gabion Box

Based on average price of a box made with 2.7mm diameter Zinc coated and PVC coated wires (hexagonal type) supplied by private dealers.

54 .M54 Geo-Textile

Based on average price of a square meter of 280 g/m² (2.5mm gauge) polypropylene Geo-textile sold by private dealers.

55 .M55 Road Marking Paint

Based on the average price of a kilogram of white and yellow colour reflectorized thermoplastic Road Marking powder sold by private dealers.

Table 2**1. L1 Skilled Labour**

Based on average daily wage rate paid to masons , carpenters, plumbers, bar benders , electrician and plant operator by public and private contractors.

2. L2 Semi – Skilled Labour

Based on average daily wage rate paid to mechanic helper by public and private contractors.

3. L3 Unskilled Labour

Based on average daily wage rate paid to unskilled labourers by public and private contractors.

Table 3**1. P1 Small Equipment**

Based on average of percentage increased in daily dry hire rates of Concrete mixer, Bob cat ,Air Compressor, Tractor with Trailer , Tractor with Bowser, Poker Vibrator, Generator, Water Pump, Boom Truck, Small Truck, Double Drum Roller & Rammer.

2. P2 Heavy Equipment

Based on average of percentage increased in daily dry hire rates of Front end loader, Motor grader, Backhoe loader, Vibratory roller, Tipper, Water bowser, Crawler excavator, Crawler tractor, Mobile crane, Crawler crane, Asphalt paver, Pneumatic tyred roller, Bitumen distributer & Chip spreader.

3. P3 Fuel

Based on dealer's price of a liter of auto diesel. (Information from Ceylon petroleum Corporation)

Table 4 Cost indices of various types of construction work computed quarterly.**Table 5** Monthly cost indices of various type of construction work.

	November	842.7	780.9	701.3
	December	848.4	785.2	742.0
2021	January	849.8	790.3	753.2
	February	856.8	793.9	754.6

*Due to error in M21 F/wk timber monthly cost indices in February shall revised

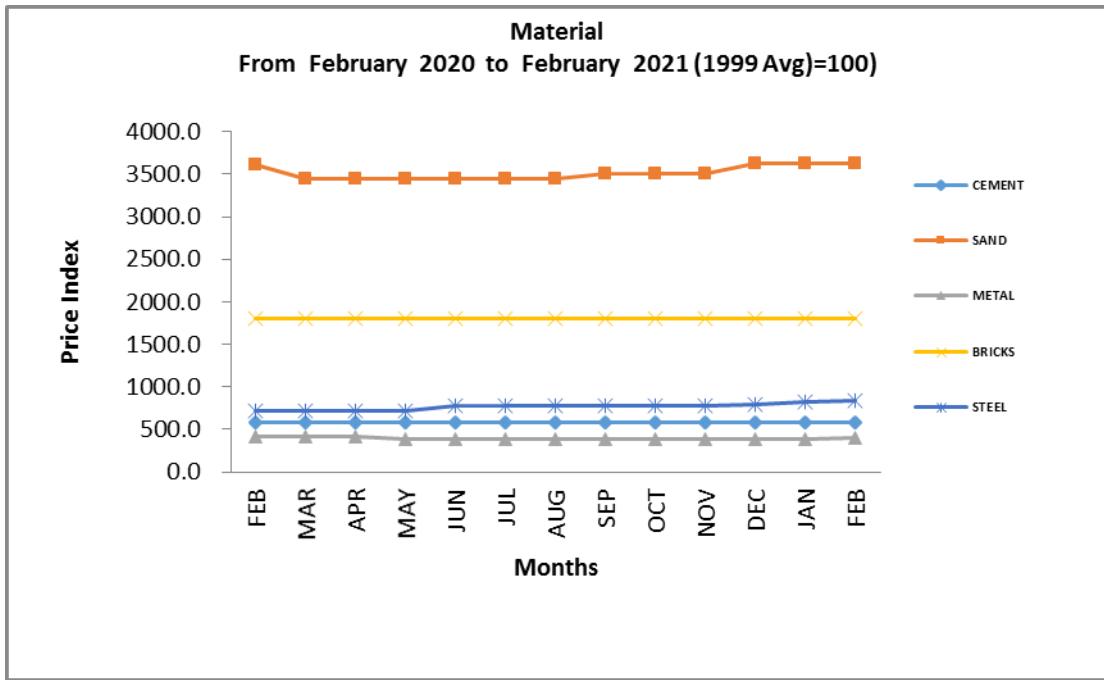

VARIATIONS IN PRICE INDICES

Graph I -Variation in price Indices –Annually

Graph II (a) - Variation in price Indices - Monthly

Graph II (b) - Variation in price Indices - Monthly

Notes to Graph I : This graph indicates the annual changes in Price Indices of Labour & commonly used building materials. Prices of most of the building materials continue to increase up to the year 2012. Significant increases are shown in Sand & Bricks. Also slight increases are shown in Cement, Metal, Steel, Aluminum, Labour & General Timber.

Notes to Graph II (a) & II (b)

: These two graphs indicate the monthly changes in Price Indices of commonly used building materials.
